## Australian Medical Grade Footwear Assoc. Inc.

### EDUCATION

### INFORMATION

### REPRESENTATION

#### **AMGFA seeks to become a strong organisation by:**

- Educating its members in relation to their current issues.
- Encouraging and facilitating high level uniform practice through the development of standards.
- Collaborating with other professionals in advances in the area of foot and lower limb health.
- Providing opportunities for the exchange of information throughout the membership through conferences and publications.
- Representing its members when it sees the opportunity to improve and advance the foot and lower limb health field.

The skills and knowledge of a medical grade footwear practitioner have always played a key role in solving people's feet and lower limb problems.

Worldwide this profession continues to play an increasingly vital role and the Australian Medical Grade Footwear Association is proud to be a solid body of members committed to keeping high standards of care and skill level in this field of treatment.

AMGFA welcomes as members, professionals in Medical Grade Footwear including custom made, extra depth and orthoses including those involved in assessment, manufacture, dispensing, modification and repair.

We also welcome other practitioners, patients and special interest groups who are genuinely interested and respectful of stakeholders in the field of foot and lower limb health and well being.
